

RECYCLED, REFURBISHED, AND RENEWED

The Gallery's savvy architecture is appealing to the eye and the environment. The Gallery's lofts have been designed to conserve energy, and preserve nature. Reuse of existing materials such as the original maple hardwood floors and window frames allowed minimal waste during construction. Equipped with Energy Star appliances and wrapped in thermal insulation, these lofts are energy-efficient as well. Additionally, occupants have the convenience of Certified Green Earth Cleaners picking up and delivering clothing. To learn more about The Gallery's eco-friendly environment, call a leasing agent at 336.788.7663.
